

NOTICE

CONSTRUCTION TO BEGIN

April 12, 2021

SUBJECT: Water and Sanitary Sewer Replacement
TO: Residents of the City of Redfield
FROM: Helms & Associates/City of Redfield

Dahme Construction Aberdeen, SD was awarded the Contract for Water and Sewer Replacement in your area. Work crews planning to be in your area starting **April 12, 2021** (subject to change).

Initial work will include [replacement of existing sewermain and watermain.](#)-New water and sewer services will typically be replaced immediately following and connected at the property line.

Schedule: 4/12 thru 4/26

- **Mill Asphalt on 6th Ave (4/12-4/13)**
- **Setup Temporary Water**
- **Locate Utilities**
- **Begin replacement of Sewer in Alley between 6th Ave and 7th Ave (4/14-4/26)**
- **Start Sewer/water on 6th Ave from 11th St going west (4/26 – 6 weeks)**

If you have a sprinkler system. Make sure that the sprinkler heads are marked with a flag (typically white).

Homeowners should expect temporarily blocked streets while the crews are working during the day. Driveways may be blocked temporarily as the work is being completed. If you are blocked into your driveway please call the following numbers prior to attempting to approach the crew working.

Helms and Associates: Leif Redinger, Project Engineer 605-225-1212
Dahme Construction: Mike Stangl, Site Superintendent 605-228-7989
Hugh Dahme, Manager 605-216-5046

City Hall: Adam Hansen, Finance Officer 605-472-4550

For Emergencies please contact Leif Redinger, 605-216-8707

Work in your area will take a few weeks but access to your driveway/alley should only be temporarily disturbed.

Temporary water will be required to complete the project. Temporary water is water delivered by above grade small diameter pipe. Homes are typically connected via an outside hose bib. If you have an exterior water spigot that is not connected inside please be sure to notify City Hall. If you have any issues with water supply please notify the above contacts. Temporary water may result in reduced pressure and flow but should still be enough for normal use. If not please notify the above contacts.

Streets will be left in a gravel state for one year. This will allow for a “freeze-thaw” cycle to take place. The streets will receive new asphalt by July 15 of the following year the underground work takes place. For road maintenance issues please contact City Hall or the Project Engineer.

Construction updates can be found on the City website at www.city.redfield-sd.com/construction-update/p/item/11373/construction-update

On behalf of the City of Redfield,
Helms & Associates
